vortexCMMS

MAINTENANCE MANAGEMENT SYSTEM

Make maintenance smarter. Keep equipment running.

Vortex CMMS connects equipment, maintenance work, technicians, facilities, spare parts and history in a single maintenance management platform — built for the modern factory.

- ~~Paper~~ → **Digital**
- ~~Reactive~~ → **Planned**
- ~~Downtime~~ → **Uptime**
- ~~Guesswork~~ → **Data**

WHAT'S INSIDE

Everything a modern factory needs, in one system.

Asset Management
Hierarchy, criticality, documents and full history.

Work Orders
From request to closure, assigned to the right technician.

Preventive Maintenance
Time- and meter-based plans.

Spare Parts & Inventory
Stock, consumption, reorder points.

Mobile App
Checklists, photos and signatures on site.

Inspections & Compliance
Traceable, audit-ready records.

Downtime & Failure Analysis
Causes recorded per asset.

KPIs & Dashboards
MTBF, MTTR, PM compliance, costs.

BUILT FOR INDUSTRIES WHERE UPTIME MATTERS

Manufacturing & Factories · Food & Beverage · Pharmaceutical & Cosmetics · Chemicals & Petrochemicals · Steel & Metal · Construction Materials · Mining & Minerals · Oil & Gas · Power & Renewables · Water & Utilities · Hotels & Hospitality · Facility Management

Less downtime. More control.

BENEFITS OF DIGITAL MAINTENANCE

6 outcomes for your factory

vortexCMMS
MAINTENANCE MANAGEMENT SYSTEM

01 Less unplanned downtime
Planned work replaces breakdowns.

02 Longer equipment life
Full history for every asset.

03 Controlled spare parts
The right part, in stock, on time.

04 More productive technicians
Less paperwork, more time on equipment.

05 Safety, compliance & audits
Traceable, audit-ready records.

06 Visible costs & KPIs
Decisions based on data, not estimates.

MOBILE APP

Work done on site — online or offline.

- Daily task list, new jobs pushed instantly
- Checklists, photos and spare parts used
- Electronic signature and automatic visit reports

SPARE PARTS & INVENTORY

The right part, in stock, on time.

- Parts used on a job are deducted automatically
- Safety-stock thresholds and reorder alerts
